

Recording now available from the The 4th Nordic Real World Evidence Conference 2020

Focusing on RWD for clinical drug development, RWE for health tech assessment and implementation of new drugs, the 4th Nordic RWE Conference was arranged as a part of the Oslo Life Science Conference and highlights RWE initiatives spearheaded by the Nordics.

The main focus on the conference was on RWD for clinical drug development, RWE for health technology assessments and implementation of new drugs on the market and RWE initiatives that put the Nordic region in the forefront.

The conference was being streamed live on February 11th 2020 with fundings from Nordplus. The full recording of the conference can be watched, with no cost involved at link below, simply press start and register your email and name to proceed. The link will be available until 11th of February 2021:
